PROFESSIONAL SUMMARY

BTECH pre-final-year student (2028) and **Node.js-focused Full Stack Software Engineer** with experience in **Node.js/Express.js (internship)**, along with frontend development using **React.js**. Built scalable payment microservices, optimized databases using **MongoDB**, and deployed applications on **AWS, Render, and Vercel**, experienced to delivering **secure, and production-ready systems** with real-world integrations.

TECHNICAL SKILLS

- **Languages**: Java, JavaScript, SQL, Python, C++
- **Developer Tools:** Git, GitHub, Postman, Docker, VS Code, IntelliJ Idea, Eclipse, Redis, Docker Desktop
- **Databases**: MySQL, MongoDB, PostgreSQL(Supabase), Redis
- **Frameworks & Libraries**: React.js, Node.js, Express.js, REST APIs, NEXT.js
- **Cloud & Deployment:** AWS(S3, EC2), Render,Vercel, Netlify, Kubernetes, Docker
- **Core Concepts**: DSA, REST APIs, Microservices, OOP, Operating System, DBMS, Computer Networks, SDLC

PROFESSIONAL EXPERIENCE

Software Developer Intern | CodeAplha *Aug 2026 – Sep 26 | Remote*

Payment Microservice

*Collaborated on and optimized production-grade full-stack services adopted by **3+ teams**, improving system performance by **20%** and enabling scalable capabilities for future product launches.*

- Developed and enhanced scalable web applications using **React.js, Node.js, and Express.js**, supporting multiple products and business workflows.
- Built and integrated **RESTful APIs** with optimized database queries and reusable frontend components for maintainable full-stack architecture.
- Implemented secure **authentication, authorization, API validation, and error handling**, ensuring reliable and secure application workflows.
- Collaborated with cross-functional teams to **debug, optimize, and deploy production features**, improving application performance.
- Reduced system latency by implementing asynchronous background processing for webhooks, preventing timeout and duplicate retry issues

PROJECTS

Cloud-Based Code Sandbox & AI Platform | *React.js, Node.js, Socket.IO, AWS, MongoDB, Redis, MISTRAL API, Docker* Github

- Architected a **full-stack cloud-based development platform** using **React.js, Node.js, Docker, and Kubernetes**.
- Developed a **real-time terminal using Socket.IO and node-pty**, enabling interactive command execution and live terminal.
- Integrated an **AI orchestration layer using LangGraph and multiple LLMs**, supporting AI-assisted development.
- Implemented a **Kubernetes-based routing and resource-management system** with Ingress, RBAC, automated sandbox cleanup, and containerized microservices for scalable deployment.

AI-Arena – A Multi Agent Chabot | *React.js, Node.js, MongoDB, REST API's, LangGraph , Multiple API Keys* Github

- Built a **full-stack LLM comparison platform** enabling real-time side-by-side evaluation of multiple AI models.
- Implemented **LangGraph-based multi-LLM orchestration** integrating Gemini, Mistral, and Cohere for parallel response generation.
- Developed an **AI judge system** to analyze model responses and provide intelligent recommendations based on response quality.

SNITCH – E-Commerce WebpSite | *React.js, Express.js, Tailwind CSS, Node.js, Redux Toolkit, Razorpay ,REST API,* Github

- Engineered a responsive **MERN-based eCommerce platform** with product browsing, search, filtering, cart, wishlist, and order management.
- Implemented **JWT authentication, Google OAuth, and role-based access control** for secure User/Admin authentication and protected routes.
- Developed reusable **React.js components with Redux Toolkit** for efficient state management across products, cart, wishlist, and user sessions..
- Integrated **Razorpay payment gateway** and built an Admin dashboard for product, inventory, user, order, and sales management.

EDUCATION

- **Bachelor of Technology (B.Tech)**

  COER University, Roorkee, Uttarakhand *2024 – 2028*

CERTIFICATIONS & WORKSHOPS

- **Full-Stack Cohort 2.0** Live Course Certification **– Code For Success** Link
- **Data Structures & Algorithms** – **Striver A2Z Series** Link
